Re: Second Request for Information Under 42 U.S.C. §9601 et seq.  
Diamond Alkali Superfund Site, Operable Unit 2

Dear Mr. Palmer:

The United States Environmental Protection Agency ("EPA") has reviewed your response to our "Request for Information" letter dated December 16, 1993. Your response dated January 25, 1994 was inadequate. While you stated that you had no information or records that would be responsive to our request, it is clear that you at least have information with respect to when Hummel Chemical Company conducted business at the Foundry Street location and other information on Hummel Chemical Company. In addition, it appears that you have not performed a complete investigation (including consulting with current and former employees) as instructed to determine if any further information responsive to our request is available.

Therefore, EPA is submitting this second "Request for Information". You must answer the questions in Attachment A of this letter and include documents supporting your responses. The "Certification of Answers to Request for Information," must be attached to your response with your notarized signature.

EPA makes this request pursuant to Section 104 of CERCLA, 42 U.S.C. § 9604. All the statutory provisions and instructions in EPA's prior "Request for Information" letters are applicable to the information requested in this letter. In preparing your response to this "Request for Information," please follow the instructions provided in Attachment B.

Your response to this "Request for Information" should be postmarked or received by EPA within thirty (30) calendar days of your receipt of this letter. Your response should be mailed to:

Mr. Lance R. Richman, P.G.  
Emergency and Remedial Response Division  
U.S. Environmental Protection Agency  
290 Broadway, 19th Floor  
New York, New York 10007-1866

with a copy to Ms. Amelia Wagner, Assistant Regional Counsel,  
Office of Regional Counsel, 17th Floor at the same address.

Your failure to respond to this "Request for Information" within the time specified above may subject you to an enforcement action under Section 104(e)(5) of CERCLA, 42 U.S.C. §9604(e)(5), and/or Section 3008 of RCRA, 42 U.S.C. §6928. An enforcement action may include the assessment of penalties of up to \$25,000 for each day of continued noncompliance.

Be advised that you are under a continuing obligation to supplement your response if information not known or not available to you as of the date of submission of your response should later become known or available. If at any time in the future you obtain or become aware of additional information and/or find that any portion of the submitted information is false, misleading or misrepresents the truth, you must promptly notify EPA. If any part of your response is found to be untrue, you may be subject to criminal prosecution.

If desired, you may assert a business confidentiality claim covering all or part of the information requested by this letter. The claim must be supported by each of the four factors specified in Section 104(e)(7)(E) of CERCLA, 42 U.S.C. §9604(e)(7)(E), and must be asserted at the time of submission, by placing on (or attaching to) the information a cover sheet, stamped or typed legend, or other suitable form of notice employing language such as "trade secret" or "proprietary" or "company confidential." Information covered by such a claim will be disclosed by EPA only to the extent and by means of procedures set forth in Title 40 C.F.R. Part 2, Subpart B. If no such claim accompanies the information when it is received by EPA, it may be made available to the public by EPA without further notice to you.

If you have any questions concerning this "Request for Information," please contact Mr. Richman, of my staff, at (212) 637-4409 or Ms. Wagner at (212) 637-3141. Inquiries from attorneys should be directed to Ms. Wagner.

Sincerely yours,

Kathleen C. Callahan, Director  
Emergency and Remedial Response Division

REQUEST FOR INFORMATION

Background

The United States Environmental Protection Agency ("EPA") is investigating the release of hazardous substances into the Passaic River. EPA has information indicating that hazardous substances from the Hummel Chemical Company facility located at 185 Foundry Street in Newark, New Jersey may have been discharged into the Passaic River. EPA also has information indicating that hazardous substances from this facility may have discharged onto the ground at the Foundry Street Complex. Hummel Croton, Inc., is a successor to Hummel Chemical Company.

Provide the information requested below, including copies of all available documentation that supports your answers.

1) Did Hummel Chemical Company receive, utilize, manufacture, discharge, release or dispose of any materials containing the following substances:

	Yes	No
2,4-dinitrophenoxyethanol	_____	_____
3,5-dinitrosalicyclic acid	_____	_____
hexachlorobenzene	_____	_____
picric acid	_____	_____
2,3,7,8 tetrachlorodibenzo-p-dioxin or other dioxin compounds	_____	_____

2)a) Provide a description of the manufacturing processes for which all hazardous substances, including, but not limited to, the substances listed in response to item (1), were a product or by-product.

b) During what parts of the manufacturing processes identified in the response to items (2)(a), above, were hazardous substances, including, but not limited to, the substances listed in response to item (1), generated? Describe the chemical composition of these hazardous substances. For each process, what amount of hazardous substances was generated per volume of finished product? Were these hazardous wastes combined with wastes from other processes? If so, wastes from what processes?

3) Describe the methods of collection, storage, treatment, and disposal of all hazardous substances, including, but not limited to, the substances listed in response to item (1). Include information on the following:

a) If hazardous substances were taken off-site by a hauler or transporter, provide the names and addresses of the waste haulers and the disposal site locations.

b) Describe all storage practices employed by your company with respect to all hazardous substances from the time operations

commenced until the present. Include all on-site and off-site storage activities.

4)a) For process waste waters generated at the facility which contained any hazardous substances, including, but not limited to, the substances listed in response to item (1), did the waste stream connect to a sanitary sewer and if so, during what years? Were they treated before being discharged to the sanitary sewer and if so, how? If the waste waters were not discharged to the sanitary sewer, where were they disposed and during what years?

b) For floor drains or other disposal drains at the facility, did the waste stream connect to a sanitary sewer and if so, during what years? Were they treated before being discharged to the sanitary sewer and if so, how? If the floor drains or other disposal drains at the facility were not discharged to the sanitary sewer, where did they discharge and during what years?

c) Did any storm sewers, catch basins or lagoons exist at any time at the facility and if so, during what years? If catch basins or lagoons existed, were they lined or un-lined? Where was the discharge from any of these structures released and during what years? Was this discharge treated before its release and if so, how and during what years?

d) Please supply diagrams of any waste water collection or disposal systems on the property.

5)a) For each hazardous substances, including, but not limited to, the substances listed in response to item (1), identified in the responses to item (2), above, provide the total amount generated during the operation of the facility on an annual basis.

b) Was any hazardous substances, including, but not limited to, the substances listed in response to item (1), identified in the responses to item (2), above, disposed of in the Passaic River or discharged to the Passaic River? If yes, estimate the amount of material discharged to or disposed of in the Passaic River and the frequency with which this discharge or disposal occurred.

6) Please identify any leaks or spills that occurred at the facility during which or as a result of which any hazardous substances, including, but not limited to, the substances listed in response to item (1), was released on the property of the facility or discharged to the Passaic River. Provide any documents or information relating to these incidents.

7) Provide the date of any leaks or spills of any hazardous substances, including, but not limited to, the substances listed in response to item (1), on the property or into the waste water discharge system at the facility. Provide details of the ultimate disposal of any contaminated materials.

848960006

8) Provide a copy of each document which relates to the generation, purchase, use, handling, hauling, and/or disposal of all hazardous substances, including, but not limited to, the substances listed in response to item (1). If you are unable to provide a copy of any document, then identify the document by describing the nature of the document (e.g. letter, file memo, invoice, inventory form, billing record, hazardous waste manifest, etc.). Describe the relevant information contained therein. Identify by name and job title the person who prepared the document. If the document is not readily available, state where it is stored, maintained, or why it is unavailable.

9) Provide all other documents pertaining to the results of any analyses of ground water, surface water, ambient air, and any other environmental media performed at the facility.

10) Provide the names of all parties who owned or operated the facility during the period from 1940 through the present. Describe the relationship, if any, of each of those parties with your company.

11) Please provide any and all additional documents in the possession of Hummel Croton, Inc., relating to the manufacturing or other processes occurring at the former Hummel Chemical Company facility. Please provide all information available to and all documents in the possession of Hummel Croton, Inc., relating to the disposal of all wastes generated at the former Hummel Chemical Company facility.

12) Please describe the types of files searched in response to this "Request for Information", the location of these files, the time spent during this search, and all personnel conducting such search.

13) Please list all of the current or former employees of Hummel Chemical Company or Hummel Croton, Inc., contacted in response to this question, including their names and their last known address.

### INSTRUCTIONS FOR RESPONDING TO REQUEST FOR INFORMATION

1. A complete separate response must be made to each individual question in this "Request for Information".
2. Precede each answer with the number of the question to which it is addressed.
3. In preparing your response to each question, consult with all current or former employees and agents of your company who may be familiar with the matter to which the question pertains, as well as all documents in the custody of or under the control of PVSC.
4. Interpret "and" as well as "or" to include within the scope of the question as much information as possible. If two interpretations of a question are possible, use the one that provides more information.
5. If you are unable to give a detailed and complete answer or to provide any of the information or documents requested, indicate the reasons for your inability to do so.
6. If you have reason to believe that an individual other than one employed by your company may be able to provide additional details or documentation in response to any question, state that person's name, last known address, phone number and the reasons for your belief.
7. For each document produced in response to this "Request for Information", indicate on the document, or in some other reasonable manner, the number of the question to which it applies.
8. If anything is deleted from a document produced in response to this "Request for Information", state the reason for, and the subject matter of, the deletion.
9. Provide all documents that relate to each question. If a document is requested but is not available, state the reason for its unavailability. In addition, to the best of your ability, identify any such document by author, date, subject matter, number of pages, and all recipients and their addresses.
10. As used herein "relate to" or "relating to" means constituting, defining, containing, embodying, reflecting, identifying, stating, referring to, dealing with, or in any way pertaining to. "Document" as used herein means any recording of information in tangible form, including memoranda, handwritten notes, invoices, checks, manifests, tape recordings, computer databases, or any tangible or physical objects however produced or reproduced upon which words or other information are affixed or recorded or from which by appropriate transcription written matter or a tangible thing may be produced.

848960008

11. Whenever in this "Request for Information" there is a request to identify a person or an entity other than a person, state the person or entity's full name, last known employment, present or last known home address, and telephone number.

12. As used herein, the term "facility," "hazardous substance," "person," and "release" shall have the meaning set forth in Section 101(9), (14), (21) and (22) of CERCLA, 42 U.S.C. §9601(9), (14), (21), and (22), respectively.

13. In answering these questions, every source of information to which you have access should be consulted, regardless of whether the source is in your immediate possession or control. All documents or other information in your possession or in the possession of the PVSC should be consulted. If you do not have access to certain information and/or documents, state the nature of this information and/or documents, and indicate in whose possession they can be found.
